

Energy-Related Best Practices: A Sourcebook for the Chemical Industry

Coordinated by:

November 2005

ACKNOWLEDGEMENTS

Many people have contributed to the creation and publishing of this document. Special thanks are extended to the individuals and companies noted below.

- Iowa Energy Center, Ames, especially Bill Haman, P.E., Industrial Program Manager
- Industrial Assessment Center at Iowa State University, Ames
- Fort Dodge Animal Health, Charles City, IA, especially Jerry Jenkins for allowing the project team to visit their site while developing the chiller and steam sections
- Procter and Gamble, Iowa City, IA, especially Theresa Harder and Jerry Ford for allowing the project team to visit their site while developing the steam section
- Monsanto, Muscatine, IA, especially Oscar Berryman and Bernie Becker for allowing the project team to visit their site while developing the steam and chiller sections
- Quad County Corn Processors, Galva, IA, especially Mike Jerke for allowing the project team to visit their site while developing the process heat section
- Terra Industries, Sergeant Bluff, IA, especially Clyde Knox and Dan Walters for allowing the project team to visit their site while developing the process heat section
- Koch Nitrogen, Fort Dodge, IA, especially Janelle Reese for allowing the project team to visit their site while developing the materials for the pump and motor section
- Diamond Vogel Paints, Orange City, IA, especially Scott Heemstra for allowing the project team to visit their site while developing the chiller section
- Arvind Thekdi, E3M Inc., North Potomac, MD, for his contributions to the process heating section
- Don Casada, Diagnostic Solutions, LLC, Knoxville, TN, for his contributions to the pump and motor section
- Bill Turpish, W. J. Turpish and Associates, Shelby, NC, for his contributions to the chiller section
- Kelly Paffel, Plant Support & Evaluation, Inc., Naples, FL, for his contributions to the process steam section
- Ronald Cox, Director, CIRAS, Iowa State University Extension
- Mike Strobe, CIRAS, Iowa State University Extension
- Trevor Gilbertson, CIRAS, Iowa State University Extension
- Rudy Pruszko, CIRAS, Iowa State University Extension

ENDORSEMENTS

Individuals in companies within Iowa's chemical industry reviewed sections of this report. They have provided their endorsements and support for the study and its content. The companies are listed below:

- Fort Dodge Animal Health, Charles City, IA
- Procter and Gamble, Iowa City, IA
- Monsanto, Muscatine, IA
- Quad County Corn Processors, Galva, IA
- Terra Industries, Sergeant Bluff, IA
- Koch Nitrogen, Ft. Dodge, IA
- Diamond Vogel Paints, Orange City, IA

Table of Contents

1. Introduction	5
2. Energy Management	9
3. Understanding The Energy Cost Structure.....	22
4. Process Heating Systems.....	25
5. Process Steam Systems	54
6. Chillers	78
7. Pumps and Motors	89
8. Available Resources.....	117
