“The ability to transform our business and remain agile is a competitive advantage in this current work environment. Because of Lean and our relationship with the Iowa Lean Consortium, Vermeer has been able to quickly reconfigure both our manufacturing and business processes to match the way we need to work today.”

—Larry Ehlinger, Vermeer

“We have a very small Continuous Improvement team, so access to ILC’s readily available resources is an important part of our CI journey. We appreciate that the ILC is a member-driven organization. They want to hear from us regarding our needs, and they work to meet those needs. This has allowed Grinnell Mutual to suggest specific training topics and targeted experiences that have improved the quality of education for our CI leaders and accelerated our overall implementation timeline.”

—Jeff Martin, Grinnell Mutual

“Muscatine Power and Water is a founding member of the ILC. We continue to participate because it provides us with a way to connect to other organizations across the state—build relationships, learn from others, and share our successes and opportunities. The training opportunities we receive as a member of the organization pay for themselves many times over.”

—Jennifer Peterson, Muscatine Power & Water

“Mary Greeley values its membership with the Iowa Lean Consortium because it brings valuable, cost-effective training to our workforce. ILC membership also provides us opportunities to collaborate and benchmark with peers, both within our industry and outside. This is important as we continue our journey toward organizational excellence using the Malcolm Baldrige framework.”

—Karen Kiel Rosser, Mary Greeley Medical Center
